The effects of a spinal cord injury can be devastating. Valir Rehabilitation Hospital understands what it takes to restore patients’ independence and confidence. We offer a comprehensive, custom program to help meet every goal.

Every program is customized uniquely to each individual and injury. Program components may include:

- Home & Work Evaluations
- Wheelchair Seating & Positioning
- Instruction on Equipment Usage
- RT 300 Electrical Stimulation
- Community Re-Entry
- Specialized “Preparation for Life” Education
- Sessions for Patient, Family, & Caregiver
- Cutting-Edge Therapy Equipment
