

## Wound Care & Hyperbarics

Valir Rehabilitation Hospital's Wound Care and Hyperbarics Center takes an interdisciplinary approach to wound treatment and healing due to the complex nature of chronic wounds. The combined knowledge of all health care disciplines - from surgery to primary care - is vital for effective chronic wound care management.

## Meet the Physician

Dr. Timothy Hursh, MD, MPH, CWSP

Dr. Hursh obtained his medical doctor degree from Oklahoma University College of Medicine over 25 years ago, and has 14 years of experience directly related to wound care and hyperbaric medicine. After completing the USAF Clinical Fellowship in Hyperbaric Medicine, Dr. Hursh obtained board certification from the American Board of Preventive Medicine in Undersea and Hyperbaric Medicine. Dr. Hursh is also a Diplomate, Certified Wound Specialist Physician of the American Board of Wound Management. Additionally, he has extensive background in military medical training.

Valir Wound Care & Hyperbarics  
Valir's Wound Care and Hyperbarics Center provides specialized treatment for chronic or non-healing wounds, which are defined as sores or wounds that have not significantly improved from conventional treatments. When wounds persist, a specialized approach is required for healing.

### State-of-the-art Treatments

With state-of-the-art treatments available including hyperbaric oxygen therapy, debridement, dressing selection, special shoes, and patient education, people with non-healing chronic wounds now have a place to turn.
